

Shopware Developer 100%

| | | | |
|--|---|---|--|
|  <p>Versatile, responsible and independent work</p> |  <p>Great team events every quarter</p> |  <p>Short decision-making paths</p> |  <p>Many opportunities to help shape growth</p> |
|  <p>Flexible division between Home office and office</p> |  <p>Young, motivated team, pulls together, flat hierarchy</p> |  <p>State-of-the-art equipment and tools</p> |  <p>Further education: Trainings, presentations, conferences</p> |

Task profile:

- You work on our Shopware projects and help deliver great shops for our clients.
- You are responsible for creating custom Shopware plugins or apps which extend the Shopware core functionalities or add new features.
- You supervise the proper operation of the e-commerce platform.
- You contribute to build up the Shopware knowledge within Webwirkung and spread yours.
- You work closely with our project managers and help them to advise the client in all technical questions around Shopware 6.

We expect:

- You are proud of the last three Shopware 6 projects you did.
- You have developed complex Shopware Themes and are proficient in SCSS, Twig, and JavaScript.
- You possess deep knowledge of CSS, HTML, JavaScript, and VueJS. Additionally, you have a foundational understanding of PHP and Symfony, and are well-versed in Shopware 6.
- You like to work independently, take on responsibility and appreciate exchange within a great team.
- You are familiar with Git, Docker, Composer, and other modern development tools and practices.
- You speak English, German is a plus.
